# THE MEDICAL CARE YOU EXPECT

## More time with your medical team

Your medical team is made up of primary care doctors, advanced practice registered nurses, nutritionists, nurses and health coaches. They spend more time with you—so you can feel cared for and fully informed about your health.

## Support for managing chronic conditions

A dedicated nurse that works with your doctor to monitor your progress, give you nutritional counseling and ensure your medications are working.

## Chat with your medical team

Fast help when you're not feeling well—from your mobile or computer at no extra cost. Get medical advice from anywhere and anytime, even after hours and on weekends.

## Appointments even on weekends

We fit your lifestyle and not the other way around—that's why you can see your doctor for routine care, even on weekends. We also offer urgent care walk-ins and same-day tests.
